a Wedding is an extremely important event. There is a ton of planning involved. You have to work with multiple vendors and family members to coordinate things. One thing that makes wedding so memorable are the wedding invitations. Having a quality invite is the perfect way to kick-off such an important day! Wedding invitations can be printed in digital format or in letterpress, an old artisan form of printing. Having a custom letterpress invite give the paper a fine texture. People will never want to throw them out, and that is the goal of a great wedding invitation.

Of course do not forget to thank all of those that attended the wedding and especially those that helped you organize and execute the wedding. Make sure you get nice thank you cards in the mail promptly after the wedding. In fact, organize all of the thank yous before hand so that all you have to do is drop them in the mail, or have someone else drop them in the mail for you. After all, the last thing you want to do after a wedding is write and send out thank you cards!
